The more TV your family watch

WU820
Contemporary style cabinet crafted of genuine walnut veneers, select hardwood solids, with oil walnut finish.

the more your TV should be...

Quasar II Color TV

with the "works in a drawer"

• No matter how much TV your family watches, they'll probably be able to watch more of it on Motorola Quasar II Color TV. Because, the "works in a drawer" help keep it home working. The works are solid-state* plug-in mini-circuits that, are designed for greater reliability. They also help Quasar II Color TV's keep new set color, new set sound, new set sharpness. If a mini-circuit ever fails, a new one can be replaced usually right at home, in minutes • Has The Bright Tube for a more "like it is" color • Automatic fine tuning brings in best possible color signal, keeps it even when you change channels • Motorola has introduced IC's into Quasar II Color TV's chassis. These advanced solid-state devices provide increased performance and reliability in color and sound.

*Solid state except for four tubes and picture tube.
